Modules Add modules to suit your needs as your business grows.

Telesales

Manage the relationship with your customer with instant visibility of contact history, order history and credit status to improve and facilitate sales. Links to the customer's website, Twitter feed and Facebook for quick access to their news.

£20.00
per month

Customers can be allocated to staff, repeat calls are scheduled for their preferred day and time, all contacts with each customer are recorded and visible on the main screen: orders, ullages, failed deliveries, sales calls, call backs. Call back scheduling with reminders, by pc or across the all pcs to ensure the call back isn't missed.

Whilst on the call: access all stock and take the order with rapid order entry for the correct delivery day. No Save buttons just move quickly to the next customer.

PDA App Access

Delivery and collection preparation for download to the **SPA-PDA** and receipt of delivery, collection and payment information into BMS

£10.00
per month
